INTERNATIONAL SCIENTIFIC CONFERENCE

TECHNOLOGIE EDUKACYJNE EDUCATIONAL TECHNOLOGIES

Świnoujście, June 5-6, 2014

Patronage
Rector of Maritime University
of Szczecin
Prof. DSc. PhD. Eng. Master Mariner
Stanisław Gucma

CONFERENCE SCOPE

The Conference scope includes issues of teaching general and professional subjects. The Conference is aimed at a vast exchange of experience on the use of educational technologies in universities and educational establishments of other types. Consequently, participation of researchers and professionals engaged in general education as well as in very specific problems of professional and technical education is expected. The scope also includes the issues of distance learning and training on simulators. This accounts for the Conference scope division into two main areas: technical subjects teaching, general and non-technical subjects teaching.
